How to Make a Soup Bowl Cozy

This easy sewing project is the must have accessory for your dining table. Here's how to make a soup bowl cozy.

ACTIVE TIME

20 minutes

TOTAL TIME

20 minutes

DIFFICULTY

Easy

ESTIMATED COST

\$2.00

Materials

- [2 pieces of 10"x10" fabric](#)
- [2 pieces of Pellon Wrap n' Zap](#)
- [Thread to match](#)

Tools

- [Scissors](#)
- [Pencil](#)
- [Rotary Cutter, Mat, & Ruler](#)

Instructions

1. Lay fabric out flat and with a measuring tape or cutting board cut the fabric 10"x10". You can do this with folded fabric or if you would like to different sides then cut one piece of one fabric and one piece of another.
2. Lay out wrap n' zap and then cut 10"x10" squares. I cut this folded as you need two pieces. Lay out the two piece of wrap n' zap and then place your fabric print side up on top.
3. Run this through the machine caddy corner from corner to corner. Do this twice to make a cross across the fabric. Do this on each piece.
4. Place the square fabric side up and then fold from the bottom up. Measure 2" on the long side and mark then 1" on the short side and mark. Do this on the bottom of each side. Then draw a line. You will then stitch along this line. Cut off excess.
5. Repeat this process on both squares. Once completed fold the fabric where the points meet. Repeat the above process of marking and stitching the ends. Trim off excess.

6. Open your bowls up. Flip one to where the wrap n'zap is face outward and up. Align the points. Clip or pin them together. Stitch around the outside of the bowl making sure to get fabric and stuffing.
7. I usually do a 1/2 inch stitch to make sure that the fabric doesn't get away from me when flipping right side in. Make sure when stitching to leave a 1 inch hole to flip your design right side in.
8. After flipping check to make sure you don't see any of the wrap n' zap. If you do flip it back inside out and stitch again. Once you have it right side in and don't see any of the wrap n' zap then make sure your points are pushed out. Fold in the hole and top stitch around the outside.
9. After top stitching push the bowl down and make sure the points are up. This will make the bowl shape. Now the bowl cozy is ready for serving.
